

## **John Cumbers**

Synthetic biology and resource utilization, NASA Ames Research Center

John Cumbers received his PhD in Molecular Biology, Cell Biology, and Biochemistry from Brown University. He has a masters degree in bioinformatics from the University of Edinburgh in Scotland and an undergraduate degree in computer science from the University of Hull in England. He founded the iGEM (International Genetically Engineered Machines competition) team at Brown in 2005, was an iGEM ambassador to China in 2006/2007 and has been working in synthetic biology and resource utilization in space at NASA Ames since 2008.
