

Dr. Noel Parmentier

Chief Strategic Officer of Rhea System S.A.

Noel Parmentier is Engineer by education of the University of Louvain in Belgium, and got its PhD in Physics at the Princeton University, New Jersey, US.

Most of his professional career, he has been involved in the Defense and Aerospace Industry. Started as an engineer in the initial activities of Europe in Manned Space. He was project manager of the Electrical Ground Support Equipment of the European Spacelab program, a contribution to the NASA Space Shuttle program.

His experience spreads over the different program cycles; design, development, production, test and exploitation and the functional elements of an organization; engineering, program management, production, marketing, quality assurance, financial, business development and general management. From 1990 he was General Manager of Alcatel Bell Space and Defense. The market covered was European and Worldwide.

In 2010 he joined RHEA as Chief Strategic Officer with the aim to grow the business for Space, Defense and Security in Europe, and exploit the cross-fertilization between the motherhouse ADGA in Canada and RHEA in Europe.
