

## **Sign up**

### **Why join?**

- You always wanted to create something daring
- You want to learn what others consider audacious and impossible
- You want to realise your own vision and defy nature
- You are not afraid to test your skills and persistence
- You want to compete with others

Oh... and you have 2 months to accomplish your mission!  
Join us today! Challenge yourself! Be prepared to work and to put lots of effort!!!  
... so read the information below.

### **Goals and commitment**

- We build our own bridge to Space and YES we know it sounds crazy...
- We have created the craziest, most audacious and (still) experimental program for space science and technology
- We give you the opportunity to broaden your view and to learn from some of the best tech and science professionals in the World
- We give you the chance to work hard with creative teams of engineers, scientists and technologists
- We give you the tools to actually prototype and build real high-tech products that could potentially change positively our own region and why not the whole World  
... Stop wasting your time and APPLY today!

### **Requirements**

- Be persistent and never quit
- Be brave enough to create
- Be prepared to make lots of mistakes
- Share and collaborate
- Bring Space closer to us!
