Why join?

- You always wanted to create something daring
- You want to do what others consider audacious and impossible
- You want to realize your own vision
- You are not afraid to test your skills and persistence
- You want to compete with others

Oh... and you have 4 weeks to accomplish your mission!

Join us today! Challenge yourself! Be prepared to work hard and prove you are worthy of a space career.

Goals and commitment

You will have the opportunity to broaden your horizons and to learn from some of the best technologists and scientists in the World.

We are giving you the chance to work hard in creative teams of young engineers, scientists and technologists.

We are giving you the tools to actually experiment and build real prototypes of high-tech products and services

... So stop wasting your time and APPLY!

Requirements

- Be persistent and never quit
- Be brave enough to create
- Be prepared to make lots of mistakes - Share and collaborate
- Bring Space closer to us!

Program Fee

As part of the Space Challenges Program, you will be provided with access to your very own office space, cutting edge tools and most importantly – mentorship from leading scientists and engineers from all around the world. The program fee is 400 EUR (800 BGN) but up to 10 candidates will be supported with partial or full scholarships by EnduroSat – our prime partner.
