

Stanimir Gantchev

Program Coordinator

Stan coordinates the program overall organization. He communicates with the lecturers, arranges the presentations and is a mentor in the CubeSat project. Stan has been a student in SC2011 and SC2012 and has won the project competitions both times. In the summer of 2012 he was acting as a coordinator of the Phoenix1 stratospheric mission which reached almost 31 km altitude and successfully completed its mission tasks. At present Stan is also director of the satellite projects at [Special Concepts](#)
